

Your System for Asset & Wealth Management made in Switzerland

Allocare AMS

Our portfolio management software Allocare AMS offers you the optimal technical basis to control the clients' assets at all times and to provide with comprehensive support to service your customers.

The modular software offers the right solution for the various procedures. From onboarding to ongoing customer care and reporting, Allocare AMS supports you efficiently in your daily work. This ensures that your business processes are adhered to, that you meet the regulatory requirements and that you can also prove this.

All data is stored centrally and is available to authorized users at any time according to your access model.

Our interfaces ensure the exchange of data with counterparties and data providers and supply up-to-date data for your analyses and investment decisions.

Comprehensive assignment options offer you exactly the desired views in the required granularity of the portfolios. The order workflow guides you from the investment idea through the pre-trade check to the executed transaction. If a loss threshold is broken or an investment limit violated, this can be reported automatically or remedied.

The flexible reporting produced in your corporate design evidences your success and is your calling card for your customers.

Our Software

CRM

Allocare AG (www.allocare.com) is an independent Swiss software company and one of the leading providers of asset and wealth management software in the Swiss market. Innovative solutions based on the tried-and-tested Allocare AMS standard software and the browser-based add-on tool Allocare WEB are developed exclusively in Switzerland. The clients portfolio consists of more than 50 mostly long-term clients in the banking and wealth management environment in Switzerland and abroad.

Since 2021, numas SA (www.numas.ch), based in Zurich, has also been fully part of the Allocare Group. Founded in 2016, numas SA is a start-up in the fintech sector. The company supports customers, especially family offices and asset managers, in data management. Their software as a Service solution, Numas WMS, is a platform based on Allocare AMS and Allocare WEB.
